Towards Mindful Living

Saturday, 20 July 2019

Organised by *Cadence Coaching and Consulting*

Towards mindful living is a workshop intended to provide a conducive space for participants to rejuvenate, and to support them in enhancing their well-being through engaging in relaxation and mindfulness practices. Relaxation exercises help us to move out of an aroused, activated, stressed state into a calmer and regulated state. Together with mindfulness practices, we will learn to step out of our automatic pilot mode and become more aware of our thoughts-feelings and our experience in the here and now. This allows us to cut through the clutter and be more present and clear on the actual experience/issues. Being present and having clarity enable us to make conscious choices on how we may want to act and respond so that we can be more effective.
